

## CMAS Small Grant Application Guidelines

Small grants are provided for up to two years duration in support of one clearly formulated proposal that supports one or more of the charity's aims<sup>[1]</sup>.

An application detailing the proposed research is required (please use the official application form).

Awards will be made following review by a working group formed from the committee of the Clinical Movement Analysis Society. Applications which encourage collaboration between centres are particularly welcome.

The principal investigator (PI) for a small grant must be employed in a permanent position in a UK or Irish university, or NHS trust or Irish public hospital institution, and be a CMAS member.

Personal support is available from this project grant for the PI, and/or others named as research workers on the application.

An award of up to £10,000 will be made annually - submission deadline 1<sup>st</sup> October.

Support may cover a minor salary component, consumables, meetings and travel. The application should not include any indirect costs such as administrative or other overheads imposed by the university or other institutions.

A team can only apply for one small grant per grant round.

Please submit your application to:  
(annual deadline 1<sup>st</sup> October)
